## POINTS OF INTEREST:

➢ In general, most vendors are non-VMI vendors.
➢ VARIETY considers EDI the most efficient/dependable way of sending our purchase orders.
➢ **DOMESTIC** purchase orders are eligible to send via EDI direct to our vendor.
➢ **IMPORT** purchase orders are not eligible to send via EDI direct to our vendor *(further details can be made available via EDI COORDINATOR)*.
➢ VARIETY sends EDI data workdays at 10am, 1pm, 4pm, 7pm & 10pm (EST).  If necessary, on-demand data sessions can occur.
➢ VARIETY orders items in consumer EA's.  If vendor requires orders to be in CA's, vendor will have to convert it.
➢ As EDI standards specify – in reply to our sent 850-purchase order, we expect/require the 997-acknowledgement.
➢ VARIETY does not utilize or expect the 856-ship notice (non-VMI vendors).
➢ VARIETY does not require the **UCC-128 labels**.  We require each box in a shipment to have a label that includes our PO number.
➢ Know that VARIETY's PO numbers are *unique*.  *Please do not duplicate or double-ship.*
➢ Multiple sends of the same PO are possible and probable.  *Please do not duplicate or double-ship.*
➢ VARIETY buyers, rebuyers or buyers assistants may send POs manually via manual scans or faxes.  *Please do not duplicate or double-ship.*
➢ PO CHANGE (via 850) -  the PO CHANGE **RESEND VIA EDI** is sent with *changed data*, but is still encoded as an *'original'* PO -
    *(more details available in other documents)*.

## VARIETY EDI DESCRIPTION:
Basically, VARIETY has a traditional in-house EDI make up.  We define the EDI relationship by getting the following values for the vendor: qualifier/id /VAN and one BACKUP email addressee.  Typically, we send a 'test' (ISA15 element = 'T') 850-purchase order.  VARIETY expects the 997-acknowledgement in reply as EDI standards specify.  Once  the test 850 is approved, we can move the relationship to production EDI (ISA15 element = 'P").  From then forward, VARIETY sends applicable purchase orders via EDI.

## USUAL EDI IMPLEMENTATION SEQUENCE (sequence can vary, if necessary):
• **850/997** - In general, we set up the 850 purchase order/expecting a 997 acknowledgement in reply - TEST, then PRODUCTION.
• **NO 856** – Do not automatically send 856's.  VARIETY does not require/utilize the 856 ship notice.
• **810/997** – Once 850s are implemented, do **not** automatically send your invoice(s) as 810s.  To move towards production EDI 810-invoices, we have to step through a set-up/test process.  Ensure your 810 data conforms to VARIETY 810 specifications.  Further, all 810s are subject to VARIETY editing/rejection.   If an 810 is rejected, your invoice data will not move from our EDI system to VARIETY payment processing.  A system-generated rejection EMAIL from EDI810support@vwstores.com will send describing the error(s).  The rejection EMAIL will instruct you to correct/resubmit the 810 - 'or' - send a paper invoice via mail or fax.  (Manual invoices are acceptable within VARIETY).

## 3rd PARTY PROVIDERS:
VARIETY does have trading partners that employ various 3rd party providers which includes various versions of web-forms.   A 3rd party EDI provider will not take action via VARIETY's instruction.   You-the vendor must contact your 3rd party provider to contact VARIETY for EDI set up.   We do have established 850 & 810 relationships/maps with:  SPS Commerce, True Commerce, DICENTRAL, Covalentworks, CORE-FORCE, and EDICT/GROCEC.
